EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kenneth M. Berner (Reg. No. 37,093) on Monday September 10th, 2007.

2. The application has been amended as follows:

In the Specification,

On Page 1:

CROSS-REFERENCE TO RELATED APPLICATIONS

This is a continuation of International Application PCT/FR02/00938, with an international filing date of March 15, 2002. The present application is based on, and claims priority from, French Application Number 01 03627, filed March 16, 2001, the disclosure of which is hereby incorporated by reference herein in its entirety.

In claim 1,

Line 21: "table around the lone particular signal level" should be replaced with -- table around the lone particular signal level --

Art Unit: 2624

In claim 2,

Line 2: "modifications performed as sufficiently" should be replaced with
-- modifications performed as are sufficiently small as to end up --

In claim 8,

Line 9: "a digital conversion table [(TC)], said correction table" should be
replaced with -- a digital conversion table [(TC)], said correction conversion
table --

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: the closest prior art made of record fails to teach or suggest a method and/or a device of processing an image in an matrix image sensor, wherein when an abnormal divergence is determined between measurements on either sides of the sensor after being divided in two zones, the method further comprises the step of using a digital conversion table for providing a corrected signal level for one zone and iteratively modifying the correction values for those signal values around the first signal level.

Thus, the prior art made of record neither render obvious nor anticipate the combination of the claimed limitations. Therefore, claims 1-17 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
